GST COMPENSATION Jharkhand joins GST borrowing scheme

All 28 states and 3 UTs have now come on board

FE BUREAU
New Delhi, December 5

JHARKHAND HAS CHOSEN Option-1 of the Centre's borrowing plan to bridge GST revenue shortfall, which will allow the state to receive ₹1,689 crore this fiscal in compensation dues while also entitling it to unconditionally borrow ₹1,765 crore as part of incentive for joining the scheme, the central government said on Saturday.

With this, all 28 states and three UTs are now on board for the plan. Jharkhand was among the 10 states initially opposed to the borrowing plan, but since then other states had come on board. They demanded that full compensation of ₹1.82 lakh crore should be given instead of a portion (₹1.1 lakh crore) that was purely due to GST implementation issue without factoring in the impact of the pandemic. "All the 28 States and three Union Territories with legislature have decided to go for Option-1 to meet the revenue shortfall arising out of the GST implementation," the government said after Jharkhand communicated its decision. The borrowing scheme, under a special window, was

State to receive ₹1,689 crore this fiscal in compensation dues

operationalised on October 23. The central government has so far borrowed ₹30,000 crore in five installments, and passed the same to states as back-to-back loans. The total borrowing under the scheme is fixed at ₹1.1 lakh crore, which is the shortfall attributed to GST implementation issues. "The next installment of ₹6,000 crore will be released to the states/union territories on December 7," the government said. The Option-1 of the scheme also grants states unconditional permission to borrow the final installment of 0.5% of GDP of the 2% additional borrowings permitted by the central government. This amounts to a little over ₹1.05 lakh crore in the current fiscal for all the states, and is over and above the special window of ₹1.1 lakh

crore. The GST Council had earlier amended the law to extend the tenure of the compensation fund, which was due to lapse in 2022 — five years after the launch of GST. This collection in the fund will be first used to pay the interest and principal of the loan, after which the proceeds will go to the states for covering up the unmet shortfall of the current year. The central government has estimated ₹1.1 lakh crore as GST shortfall for states this fiscal from the level of protected revenue guaranteed to them under the law. States are assured of 14% year-on-year growth in GST revenue, which is met by their own revenue and any resultant shortfall is made up from cess funds. The borrowing proposal was presented to states after it became clear that compensation fund, which collects proceeds from cess imposed on goods under GST, was woefully inadequate to meet the protected revenue of the states.

Petrol price at 2-year high of ₹83/litre, diesel at ₹73.32

PRESS TRUST OF INDIA
New Delhi, December 5

PETROL PRICE ON Saturday breached the ₹83-per litre mark in Delhi for the first time in more than two years after a rally in international oil prices forced a 13th increase in rates in the last fortnight. Petrol price on Saturday was raised by 27 paise per litre and diesel by 25 paise, according to a price notification of oil marketing companies.

Petrol price in Delhi rose to ₹83.13 per litre from ₹82.86. Diesel rates went up from ₹73.07 to ₹73.32 per litre. This is the highest rate for petrol and diesel since September 2018 and followed the 13th increase in rates since November 20, when oil companies resumed daily price revision after nearly a two-month hiatus. In 16 days, the petrol price has gone up by ₹2.07 per litre and diesel rate has risen by ₹2.86. ICI Securities said vaccine hopes were driving oil prices up. Brent crude oil is up 34% from lows in end-October 2020 driven by hope that Covid-19 vaccines would lead to demand recovery. "The oil price surge is despite a second wave of Covid in Europe and US (which has led to demand recovery reversal), and surge in Libyan oil output from 0.1 million barrels per day (bpd) to 1.25 million bpd," it said. Oil cartel OPEC plus its allies like Russia, (called OPEC+), decided to raise output from January 2021 more modestly than earlier agreed is likely to ensure global supply deficit even in the first quarter of 2021.

Mizoram enters solar map of India with 2-MW solar plant

THE NORTHEASTERN STATE of Mizoram has entered the solar map of the country with the commissioning of the first solar power plant at Tlungvel, an official said on Saturday. The grid-connected 2-megawatt solar photovoltaic (SPV) plant was inaugurated by the state's power minister, R Lalzirlana, on Friday. Lalzirlana said, besides solar

energy, the hydroelectric potential of the state must be harnessed, so that the vision of the Mizoram government with respect to self-sufficiency in power can become a reality. The ministers said solar plants of 20-MW and 5-MW capacities were under construction at Vankal in Khawzawl district and near Saitual town. —PTI

Pilot bodies advise members: Don't participate in AI disinvestment process

PRESS TRUST OF INDIA
Mumbai, December 5

AIR INDIA PILOT bodies IPG and ICPA on Saturday advised their members not to participate in the airline's disinvestment process, saying that the management has still not addressed their concerns over "disproportionate" pay cut, which has been in effect since April. In a joint communication addressed to the members, both the Indian Pilots Guild (IPG) and Indian Commercial Pilots Association (ICPA) said while other domestic airlines had "revised" pay cut for pilots, Air India had not done so. The communication comes amid reports that Air India employees are preparing

to bid for the airline in partnership with a private equity fund and each employee will be asked to contribute ₹1 lakh towards the bid. The disinvestment process of Air India and its wholly-owned subsidiary Air India Express and ground handling joint venture (in which it has 50% holding) recommended in January this year. The last date for submission of bid

expires on December 14. "A letter by Meenakshi Mallik (Air India director commercial) with regards to an employee bid in the strategic sale of Air India has been brought to our notice. In this regard, all pilots are advised not to acknowledge or participate in the process initiated by the management official till the disproportionate 70% pay cut for

pilots vis-a-vis (10%) pay cut of top officials is addressed," stated the communication. It also said "while other major airlines in India have revised the pay cut for its pilots, Air India being a government owned PSU is yet to address the ordeal faced by us". It may be mentioned here that Air India pilots have been accusing the management of taking a unilateral decision on reducing their salaries by up to 70% to mitigate the impact of the pandemic on the loss-making airline's financials. Besides, they have also been demanding payment of arrears held back on account of 25% wage cut implemented five years ago.

OVL strikes oil in Colombia block

PRESS TRUST OF INDIA
New Delhi, December 5

ONGC VIDESH, THE overseas investment arm of state-owned Oil and Natural Gas Corporation (ONGC), has made a "significant" oil discovery in an onshore block in Colombia. OVL struck oil while drilling an appraisal well 'Indico-2' in CPO-5 block in Llanos Basin of Colombia, the company said in a statement. OVL is the operator in the block with 70% stake. Geopark, an independent oil and gas company focussed in Latin America, has the remaining 30% interest. The well 'Indico-2' encountered a net pay of 147 feet, which during initial testing produced oil of 35.2 degrees API in commercial quantity at the rate of 6,300 barrels per day. "Currently, the well is flowing under short-term testing with multi bean study for further evaluation," the company said. This is the fourth commercial find in the block by OVL. Light oil was discovered in the first well 'Indico-1X' in the Indico field during December 2018, and to date it has demonstrated a sustained flow of 5,200 barrels per day with a cumulative output of over 3 million barrels of oil so far. CPO-5 is a large onshore block covering an area of 1,992 sq km and offers multiple exploratory opportunities. "The company now plans to drill more wells to explore the other plays in the block in the immediate future. OVL is also undertaking additional 3D seismic data to map more drillable prospects in the other sectors of the block," the statement said.
